## **California General Comments**

- Closure of Riverbank Army Ammunition Plant eliminates excess, reduces redundancy, and transforms munitions production and storage installations into multi-functional munitions centers of excellence.
- Realignment of Sierra Army Depot removes redundancy and supports the development of a multi-functional fully work-loaded Munitions Centers of Excellence that support readiness for all the Services
- Closing Reserve Component facilities is offset by the construction of modern AFRCs that will be the right size and design to support Guard and Reserve units that will be stationed there. Transforming RC facilities will improve training, readiness and quality of life for more than 3438 RC soldiers, full-time unit support personnel, and their families.
